TERMS PER YEAR, - - - \$2.00.
IN ADVANCE.

The WEEKLY GAZETTE is now the largest paper printed in the State, and having the matter published in the DAILY to select from, we challenge comparison with any newspaper in Wisconsin. In correct political doctrine, in reliable market reports, in giving the latest news from all quarters, in literary merit and in local information relative to this city and country, we shall spare no pains to make the WEEKLY GAZETTE worthy of public patronage and support.

For local matter, city notices, railroad directory, arrival and departure of mails, and market reports, see fourth page.

The News.

Our dispatches contain glorious news from Sherman. He has taken Briceville and destroyed the South Carolina Railroad, thus forcing Hardee to evacuate the place, while another column is within three miles of Charleston and was thundering at its gates on the 10th inst. Uncle Sam's blue pills are working gloriously in the bowels of the Confederacy. South Carolina, the mother of the rebellion, must now come to judgment, and answer for the crime of firing upon Fort Sumter. All loyal men will weep when her fate is told.

The Tri-Weekly Gazette.

To meet a demand that is felt everywhere in these hurrying times, we shall commence the publication of a Tri-Weekly edition of the Gazette, on the first of March next. Many persons who cannot quite afford a daily paper, and are unwilling to wait for the tardy visits of the Weekly, will find the Tri-Weekly just suited to their wants. Those, too, whose mail facilities are such as to make a daily out of the question, will be glad to avail themselves of the next best thing and get a paper every other day. The Tri-Weekly will contain the very latest military and other news from all quarters, up to the time of going to press.

The terms will be \$4.00 per annum, in advance; or at the same rate for three or six months. We shall be obliged if subscribers will hand in their names at once. THOMSON & ROBERTS.

WENDALL PHILLIPS said, in a speech in Boston the other day, that General Banks could tear in tatters the constitution of the United States, and from the constitution of Louisiana under his feet to suit his own purpose, but he could not give a black man a vote because an old law of Louisiana forbade it. It was like the man who committed a theft on Saturday, and was arrested on Monday, who told the sheriff that he might easily have escaped, but for his conscientious scruples against traveling on the Sabbath.

The motion to strike out the word "white" in the definitions of the qualifications of members of the Missouri Legislature, has been defeated in the Constitutional Convention of that State, by a vote of twenty ayes to twenty-eight nays. A similar motion to strike out the same word and insert others, so as to permit colored persons to vote and hold office, was lost by 12 yeas to 32 nays.

It has already been announced that the rebel-sympathizing Legislature of Dole, were rejected the Constitutional Amendment by a large majority. They did not do so, however, without a remonstrance from the patriotic Chief Magistrate of the State, Gov. Canham, who sent them an address urging them in eloquent terms to unite in the declaration that "henceforth and forever the Republic shall be free."

The Copperheads of Connecticut held a State Convention at Middletown, on the 8th inst., and re-nominated the ticket so badly beaten last year, resolving "that the corner-stone of our liberties is to be found in the great principle of State Sovereignty," and denouncing the impending Constitutional Amendment in unqualified terms.

SENATORS Doolittle and Howe, of this State, voted the other day for an amendment to the constitution, I. I., denying to a drafted man the privilege of furnishing a substitute. The amendment was rejected, however, by a large majority.

THE MILWAUKEE Sentinel says the United States Telegraph Company have completed their line through to Ozaukee, Sheboygan, Manitowish, Green Bay, etc., all in running order.

THE Wisconsin is informed that a new paper mill is to be built the coming season at Oconomowoc.

DR. ELDER lectured in Chicago Monday night, from a report of which we take the following:

"A member of Congress had asked him the question whether wealth increased in proportion to population. He thought the query was one of great magnitude. He believed we had a population of 2,000,000 more to-day than on the afternoon when Sampter fell. Our productiveness has been doubled since the rebellion. The waste of war is but a bagatelle compared with the waste of unproductive labor. We can come out richer at the end of a seven years' war than before it."

Through the stimulus given to labor by the war, our productions were now \$750,000,000 per year more than during the years of peace. The foreign emigration was immense. It had increased vastly within eighteen months. England had sold us our bonds at half price at the commencement of the war, she would not buy them back at a premium. We gave England one screw on cotton; we gave her one more on gold. When our war closes we shall burst the Bank of England.

CONVERSATION.—Sincere and happy conversation doubles our power. In the effort to unfold our thought to a friend, we make it clearer to ourselves. Conversation fills all our mental deficiencies; but the defects of man hinder this Paradise. Very rare are the high and fine gifts which make its perfection. The scholar, the philosopher, is probably an unproductive man, and can not conform his conversation with his genius; he sits and suffers. The French say, "He is a block-head; he is nothing but a genius."—*Elmer.*

State News.

The Fond du Lac Press says the employees of the Provost Marshal's office in that city, are about to send to Mr. Lincoln, accompanied with their tender regards, a beautiful inland table, made by Mr. Peter Glass, of the town of Scott, Shelbyville county. It is embellished with the portraits of Lincoln, Johnson, Grant and Butler, and is valued at one thousand dollars. Two promising students died in Lawrence University, Appleton, of small pox, in its most virulent form, during the past week. There have been a few other cases, but none others fatal. It is somewhat singular that there has not been a case among the citizens. The disease has been very virulent among the Oneidas, who do much of their trading in Appleton. The Appletonians claim that they have discovered petroleum in a "gas well," which has been attracting visitors from all parts of the country for months. Also that they have found unmistakable evidence of copper in the bed of Fox river at Appleton. They have formed companies, purchased machinery, and expect to accomplish wonders very soon.

The Marquette Express of the 8th notes the death of Wm. C. Root, a prominent citizen of that village. The same paper gives the names of four members of the Bradford family who died of diphtheria, near Marquette, between the 9th and 20th of January. The Hudson Star says many of the farmers in St. Croix county are making arrangements to manufacture maple sugar the coming spring. This is a good idea. Sugar making will prove profitable to those engaged in it, and keep considerable money in the country. There is considerable religious interest at Hudson. After several contradictory orders and dispatches on the subject, the Provost Marshal's office for the 6th district remains at La Crosse.

The Sparta papers give an interesting account of the meeting of the recent convention of the Independent Order of Good Templars of Northwestern Wisconsin, assembled at Sparta. Some twenty lodges were represented and about three hundred delegates present. They had a harmonious and profitable session. H. H. Giles, Grand Worthy Chief Templar, presided.

The Fond du Lac papers are proud that the Normal class in their High School, the youngest in the State, ranked next to the highest, High School in District No. 2 Beloit, ranking first. The term of Col. Tompkins, at Fond du Lac, was recently destroyed by fire. Loss, \$1,000; supposed to be the work of an incendiary. The Fond du Lac Commonwealth says Gough had an overflowing house at his lecture there, and delighted his audience. His subject was "Temperance."

The Agricultural society of Brown county is out of debt and has a snug little sum in the treasury to commence the year's campaign. The Dowsboro' Broad Axe editor caught fire in the absence of the editor, lately, and in the effort to save the "matter" from the flames considerable of the type was "knocked into pl." Rev. Mr. King came near having his arm broken by some boys running against him while sliding down hill.

The Waterville Witness notes the departure from that town of 42 men raised by Lt. John (Grinnell), in ten days, and says Homer Goebel, an old veteran in the 3d regiment, has engaged with Anselmi Bell in raising another company, having already raised 60 men. The quota of Grant mainly \$500.—The Polk county Press says all indications have been discovered in that county, and a well is to be sunk to prove whether there is anything of it. A new steamboat is to be built at Osceola, 120 feet long, 22 feet wide, and is expected to draw 7 inches of water, light.

Legislative Summary.

Monday Evening, Feb. 13.—Senate.—A bill was introduced to increase the salaries of the Judges of the Supreme Court, and the first and second and ninth circuits from \$2,500 to \$5,000 a year.

Assembly.—A petition signed by six hundred citizens of foreign birth, residents of Milwaukee, asking for a law compelling aliens who are exempt from draft to pay a special tax, was presented. Also several petitions for a law requiring railroad directors to be residents of the State.

Bills were introduced to allow towns to fix the pay of supervisors and assessors, amending section 15 of chapter 133, Revised Statutes, so as to increase witness fees; in relation to the redemption of lands sold for taxes; and amending the act of 1864 for the relief of soldiers' families. A bill to fix the per diem of county supervisors was indefinitely postponed.

Tuesday, Feb. 14.—Senate.—Only three bills, of a local character, were introduced, and two bills also were passed. A large number of bills were referred to committee of the whole and several ordered to a third reading. Bills to restore capital punishment and for the protection of purchasers of real estate on sales made by order of probate judges, were postponed one week.

Assembly.—A message was received from the Governor transmitting the following resolution adopted by the State Convention of Missouri and forwarded by its direction to the several States:

Resolved, That this Convention hail with joy the passage of the constitutional amendment by the Congress of the United States, which shall, it ratified by the action of the States, as we hope and trust it will be, prohibited slavery forever in this country and make it free in fact.

The Senate resolution requesting a postponement of the draft in this State until April, was concurred in. Bills were passed for protecting owners of cranberry marshes, and amending chapter 129, laws of '61, so as to elect County Supervisors alternately from the even numbered districts one year, and the odd on following year, thus securing the presence on the board of one or more members who have had a year's experience in office.

SENTENCE OF A REBEL SPY!

FROM SHERMAN'S COMMAND.

New York, Feb. 15.—The World's Edition Head correspondent says reliable information has been received here that Sherman's army is rapidly marching on the line of the Edisto river, and that a portion of his troops are beyond the Georgia and South Carolina Railroad, where they have erected defenses preparatory to a further march. The enemy have disappeared rapidly before the advance of our troops, and they have manifested a purpose to evacuate nearly all their strongholds and retreated further north. This purpose has been the result of Sherman's tactics. That their retreat will be slowly but surely followed up, admits of no question. Our troops are known to extend over a distance of forty miles, and for several days past they have been occupied in destroying all the railroads which connect South Carolina with the Gulf and the Northern States. The object would seem to be to isolate Branchville, Augusta and Charleston from all possible trade or reinforcements in order to capture the garrison of each city. This important work will doubtless be completed when this letter reaches you. Some of our troops are north of Charleston which is cut off from reinforcements. The corps are moving simultaneously on the line of the Edisto and the towns they have passed through have been deserted by numbers of their inhabitants who have forced the able bodied negroes to leave with them in order that they may not aid our army. Hamburg, Aiken and Orangeburg in the rear of Branchville, are reported to have been captured.

Philadelphia, Feb. 14.—The Bulletin has the following dispatch from Washington: The Richmond papers of the 13th inst., announce the tapping of the railroad by Gen. Sherman, north of Branchville and between Kingsville and Branchville, thus destroying every road centering at Branchville. New York, Feb. 15.—It is now said that the rebel Gen. Hindman, of Arkansas, has gone to the city of Mexico, expecting to obtain a command in Maximilian's army, having lost his faith in Jeff. Davis' Confederacy. It is also stated that several other rebel officers have lately arrived at Matamoros.

New York, Feb. 15.—The World's Washington correspondent reiterates a former statement that the rebels would soon evacuate Richmond and the Atlantic coast and fall back to the mountains in the interior. He now says that Lee and Beauregard will command two grand armies and that preparations are making for an overwhelming attack.

New York, Feb. 15.—The Herald's Washington special says Richmond papers of Monday conceded that Gen. Sherman has flanked Branchville both above and below and that Hardee's forces have evacuated that place. They also state that a Union column has reached Orangeburg, on the Columbia road and all railroad communication with Charleston is cut off except by the road via, Wilmington, N. C. which will soon be cut at Wilmington. By these operations the railroad communication between Virginia and the south is entirely cut off and rebel authority over the southern States can no longer be enforced.

Private advices from Richmond represent matters there as in a bad way for the rebels, and the difficulty of supplying the people and the army even with half rations, is daily becoming almost unmanageable, and the evacuation of Richmond is daily becoming more imminent and probable.

A later dispatch, dated midnight the 14th says: The Richmond papers of today have dispatches saying that a portion of the Union column has reached Orangeburg, on the Columbia road and all railroad communication with Charleston is cut off except by the road via, Wilmington, N. C. which will soon be cut at Wilmington. By these operations the railroad communication between Virginia and the south is entirely cut off and rebel authority over the southern States can no longer be enforced.

They also state that a large Yankee force has landed at Smithfield on the North Carolina coast, and have brought locomotives with them, evidently intending to use the railroads to facilitate their military operation after they shall have captured Wilmington.

Washington, Feb. 14.—It is stated that the substance of a dispatch from Gen. Grant to the Government, received today, is that the Richmond papers of Monday say Sherman has crossed the Edisto, which was the line held by Gen. Hardee, defending Branchville. According to the same rebel authority, a portion of Sherman's forces are two-thirds of the way from the Edisto to Columbia, an important point, forming the junction of the Charlotte and South Carolina, and the Warrenville and Columbia Railroads, which connect with the railroad to Richmond. New York, Feb. 14.—The Times says

Senator Foote was given the alternative to return South, go to England, or to Fort Warren. It says Foote represents the Confederacy on the one of disruption, and the struggle on the part of the rebels is nearly over. He says high military authority in Richmond admits the capture of Branchville; must compel the evacuation of Charleston, Wilmington, and even Richmond itself. He thinks the leaders will endeavor to leave the country, and the campaign, on the part of the rebels, will descend to guerrilla fighting. Foote is prepared to issue an address to the people of the South, urging them to cease fighting, and give up the contest which is so clearly hopeless, and as no terms but an unconditional surrender can be obtained, to promptly accept such terms. Foote also represents the unpopularity of Jeff. Davis at the South as very great, and the people have lost all confidence in him. The mission of Stephens, Hunter, and Campbell was only a ruse on the part of Davis, and a forced concession to the peace men of the South.

The Richmond Dispatch has an article on the importance of time to the rebels in the coming military campaign. It calls loudly for action, and says it is no time to hold long debates in the Cabinet when the ship is within sound of breakers. The Waig has an editorial on the mistakes of Mr. Blair, and the fallacies of the North in regard to peace. It declares that there is no real peace feeling in the South except on the basis of independence, and repeats the usual outbursts of defiance to the Southern heart.

The Sentinel abuses the terms offered by Mr. Lincoln, and says it is impossible to accept them. It makes the usual charges of bad faith, particularly on the exchange of prisoners. It says as long as the rebels had an excess of prisoners, the cartel was observed, but as soon as circumstances were reversed, the exchange was broken off under frivolous pretexts.

In the rebel Congress on Friday last, Mr. Dinkens, of Mississippi, offered a bill authorizing the President to ask and accept from owners of slaves the services of any number of able-bodied negroes that may be deemed necessary. The bill provides that no slave shall be made between master and slave.

On motion of Mr. Miles, of S. C., the bill was rejected. Mr. Barksdale then moved to refer to a Select Committee, which was agreed to.

The Petersburg Express of the 11th says it has substantial grounds for the belief that Grant was reinforced last week by 12,000 of Thomas' troops, and during all Thursday, Friday and Saturday nights his trains were running from City Point to Yellow Tavern.

The Charleston Mercury of the 4th says: "Only one division of the enemy remains at Potomac, composed solely of Foster's troops."

Washington, Feb. 15.—The Richmond Waig of the 13th inst., contains the following important intelligence: CHARLESTON, S. C., Feb. 10.—A force of the enemy, believed to be from 2,000 to 3,000 strong, landed at Grimball's James Island, at 6 o'clock this morning, and drove in our pickets. Some skirmishing took place but no general engagement. Grimball is on Stone River about two miles southwest of Charleston.

The enemy are making active demonstrations at various points, but they are believed to be feints.

A force attacked our troops on the Salkahito, this morning, but were easily repulsed. The enemy also advanced upon the Charleston Road near the Blue House, and opened with artillery, but made no impression on our lines.

Intelligence from the road today reports that the enemy crossed the Edisto at Banker's Bridge. They are now moving up the Edisto. It will be remembered that on Friday, the 4th inst., Sherman crossed the Salkahito between Backston and Rivers' bridge. The Yankees completely out-flanked our forces and compelling them to fall back to Branchville. We have since learned that the Yankees forced the river through water waist deep at Rivers' bridge. A sharp engagement took place here which lasted several hours, in which Gen. Wheeler's cavalry inflicted severe injury upon the enemy.

On the 8th a heavy column of Yankee infantry struck the South Carolina Railroad at Grahamville, about 18 miles west of Branchville, while Kilpatrick, with a cavalry force, occupied Blackville, on the same road, about nine miles a little north-west of Grahamville.

A portion of Sherman's column, it was reported yesterday, moved forward, crossing the South Edisto and flanking Branchville on the west. This force then advanced to Orangeburg on the Columbia and Branchville Road, 10 miles west of the latter place. Orangeburg is a beautiful village of about 1000 inhabitants, and has been a favorite retreat for refugees from Charleston. It was largely engaged in the manufacture of indigo before the war.

FROM WASHINGTON.

Washington, Feb. 14.—In a prize case before the U. S. District Court, it was charged in a libel that a certain vessel was forfeited by reason of having entered the port of Norfolk in violation of regulations of the Sec'y of the Treasury and the several intercourse proclamations of the President. The cargo was loaded in 1863 and the seizure of the vessel was not legal. During the interval the vessel made two or three voyages. The turning point of the case was the question whether the vessel made guilty by the language of the admiralty law by the violation above-mentioned, was purged by the innocence of the subsequent voyages, coupled with the delay of the Government in making the seizure. The Court held the forfeiture as complete the moment the cause of it arose and this cause is the not violating the law and sentence of condemnation was accordingly pronounced.

New York, Feb. 14.—The Commercial's Washington special says Mr. Garfield's bill for a national line of railroads from New York to Washington, met with unexpected opposition in the Committee on

railroads. It is now doubtful whether it will be favorably reported upon.

New York, Feb. 14.—The World's Washington correspondent has intelligence confirming the report that Richmond would be evacuated under certain contingencies, and that the new military policy of the rebels was to give up all seaboard cities almost without a struggle. He says that Lee accepted the position of General-in-Chief on the written pledge that the military policy he might advocate should be carried out. This includes the plan of evacuating all posts near the Atlantic coast and concentrating the troops of the Confederacy at one or more points further inland. The rebel armies in the Southwest are ordered East. The Southern forces will be concentrated into two large armies, viz: One in Eastern Virginia, under the direct control of Lee, and another in South Carolina, under Beauregard. It is designed to fall upon Sherman with the whole force, and if successful in destroying his army, to attack Grant in the same way.

FROM NORTH CAROLINA.

New York, Feb. 14.—The Commercial's Newbern, N. C., correspondent says that an expedition is preparing there which in all probability will make an advance upon Goldsboro which if captured, will give us all of south eastern North Carolina.

Lt. Ward of Gen. Palmer's staff, was accidentally shot by Capt. Horn of the 3d New York cavalry.

Washington, Feb. 14.—Admiral Porter has forwarded the following to the Navy Department: U. S. STEAMER MONTICELLO OFF WILMINGTON, N. C., Feb. 7.—Sir—I have the honor to report that I entered Little river South Carolina, on the night of the 4th inst., and proceeding about two miles with four gunboats and fifty men landed in the small town of All Saints parish on the Little river. The town was placed under guard without the knowledge of the inhabitants and succeeded in capturing some soldiers and arms. I held the place all the next day and discovered and destroyed about \$10,000 worth of cotton, and also captured two flats at the mouth of the Harbor containing 23 bales of cotton which had sometimes been removed from a blockade runner to lighten her. These we brought off together with some negroes. The South Carolina planters and all men with whom I met, professed to be willing to come back under the old Government, and most of them seemed to be loyal men only awaiting an emancipation from the military rule.

On the 6th I sent two boats crews ashore in charge of acting master, C. A. Peck. He captured the most force detailed to collect provisions in that country, capturing six soldiers with their arms and equipments, and destroying the stores that had been collected for the enemy at Fort Anderson.

The soldiers lately stationed at Charlotte had been withdrawn to assist in the defense of Wilmington. A hundred rebels are still at Lockwoods. The woods are full of deserters.

Very respectfully your obedient servant, W. B. CUSHING, Lt. Com.

To Rear Admiral D. D. Porter, commanding U. S. squadron, Cape Fear river, North Carolina.

FROM SOUTH AMERICA.

New York, Jan. 14.—By steamer Ocean Queen we have Aspirinval advices of the 8th. The steamer Peru from Callao on the 28th of January brought news that the Spanish Peruvian question had been settled. The terms are said to be that Peru shall pay three millions of dollars for the expense of the Spanish expedition.

Peru obtains possession of the Chinche Islands admits a Spanish colony and admits the interest of the Spanish.

Richard M. Jessup, formerly of New York, one of the Californian pioneers, died of neuralgia at Aspirinval on the 4th inst.

The small pox continues its ravages at Kingston, Jamaica. The government of Bogota have issued an order prohibiting the passage of foreign troops across the Isthmus in future. Exception is made with regard to United States troops owing to the situation of their territory on the Pacific coast.

FROM NEW YORK.

New York, Feb. 14.—Gold is dull but steady. There is no speculative movement and very little demand for imports, the price opened at 2.07 1/2, went up to 2.08 1/2, and dropped again to 2.07 1/2.

New York, Feb. 14.—Capt. Jas. Y. Beall convicted of being a spy and guerrilla, and being one of the late Lake Erie pirates, will be hung Saturday morning on Governor's Island, N. Y. Harbor, the sentence having been fully approved by Gen. Dix.

New York, Feb. 15.—Capt. Kennedy, charged with being one of the rebels who attempted to burn this city, is now being tried before the same military court which convicted Beall.

FROM GRANT'S ARMY.

New York, Feb. 15.—The army of the Potomac holds its newly acquired ground on Hatcher's Run, on which strong earthworks are now erected.

There are rumors that the enemy is moving out of the union forts in front of Petersburg.

Major Gen. Wright returned to the army Sunday last and resumed command of the 9th corps from which he had been absent since the early part of January.

Desertions of rebels to Gen. Grant's lines still continue numerous.

FROM KENTUCKY.

Louisville, Feb. 14.—There was a fight Saturday night in Garrison county, between the home guards under Capt. Bates and a gang of guerrillas said to be part of Lyon's command. The guerrillas were routed with the loss of six killed. Bates' loss was one killed and one wounded.

DRAFT POSTPONED.

Berlin, Feb. 15.—It is understood that the draft which was to have taken place to-day is postponed until the 8th of March.

AUCTION SALE OF REAL ES.

Will be held at and at attention to the highest bidder, on the sidewalk in front of the First National Bank, in the city of Janesville, on Saturday, the 18th day of February, 1865, at 2 o'clock in the afternoon, the following described improved real estate, the property of the late E. B. Dow:

Two business lots on West Milwaukee street, near said Bank, on which are good frame store buildings, viz: the Store and the one owned by E. B. Dow, and the Store next adjoining the same on the East now unoccupied. The first being 21 feet front and 110 feet deep; and the other about 10 feet front by 110 feet deep.

The northeast corner of lot 22 Mitchell's Addition, on Jackson street in the First Ward, on which is a good frame dwelling house with fruit and ornamental trees; it being the house formerly owned by J. H. Bunker, and adjoining on the north the residence of J. S. Cougher.

Home Manufactures.

When it is shown that all inland cities like ours must depend upon their manufacturing interests for continued and ultimate success, the argument in favor of fostering home industry is not fully rounded off until the benefits resulting to the mechanical, and especially to the agricultural interests of the adjoining country, are considered. It has been said that the man is a great public benefactor who can devise the means whereby two blades of grass may be made to grow where only one grow before; and so, in an agricultural point of view, it may be said that the man who creates a necessity for two blades of grass to grow where one fills all wants now, is conferring a benefit upon his fellows. All over the great West we hear the complaint almost daily of the increased rate of freights between this and the seaboard, and the intervention of the strong arm of the legislative power of the country is invoked to correct an evil whose cure may be effected much easier by private enterprise than by municipal enactment. No farmer in Rock county can send a bushel of wheat to New York without its costing him another bushel in the way of tariff; or if he undertakes to send his coarsest grains to market, his profits will be proportionally less. He feels that there is a wrong done him somewhere and that it *should not cost* one-half of his crops to market the other half, and so he petitions the legislature for a *pro rata* tariff on railroads, when a good home market, such as every manufacturing town provides, would make him independent of all middle men and railroad monopolies. Agricultural wealth and independence comes of a brisk demand for all kinds of agricultural products at the point where they are produced. The hardy pioneer who pitches his tent a hundred miles beyond the line of civilization, finds his first crops comparatively valueless beyond what is needed for the necessities of his own family, for the reason that it costs too much time and weary labor to transport them to the nearest market: and it is not until the mill and the store and the shop are erected in his neighborhood, making a demand for his products, that he is stimulated to raise an amount larger than is sufficient to meet his own wants. But when the mill is built, and the stream dammed and the incipient village begun, the first settler feels richer and is richer because that reciprocity of interest which affects every body in older communities, then begins to affect him in the new, and the crops that were scarcely worth harvesting before, are then of the utmost importance both to himself and others. And as the years roll on and he sees the village expanding into a flourishing city, extending its solid blocks of buildings over the very ground that he purchased at government rates a few years before, he feels in his pocket and in his social relations how mutually dependent we are upon each other for much that makes life desirable.

Every manufacturing establishment built in Janesville, adds to the value of every acre of land in Rock county, because it makes a better demand at home for the grain and meat grown upon the farms. If the wool grower finds upon every stream in his county a woollen factory where his crop is annually worked into cloth and yarn to supply the ready demand, he need not care how much the railroads charge per pound for carrying wool to New York, nor how much is asked for bringing cloth back from the New England mills for home consumption, as he would not be at all affected by either. And the only remedy for the evils daily complained of in regard to the exorbitant tariff between the west and the seaboard lies in the direction indicated above and not by legislation. No statutory enactment will reach the case as soon and deal with it as thoroughly and as satisfactorily as to grant immunity from these evils to those who suffer from them. If our manufacturing establishments could be increased to the extent that every bushel of wheat raised in the county would be grown and consumed at home, what farmer would care whether it costs one shilling or one dollar to send a bushel of wheat to Boston?

But as the case now stands we send our wool to New England to be manufactured, paying a high rate of transportation therefor; we send our wheat after the wool to feed the operative that makes it up—paying a ruinous tariff upon the grain; then after enriching the manufacturer with nice profit, we again pay the shippers' snug sum per yard to have it brought back to us to be made up and worn. Thus as Western farmers made to pay unwilling tribute, first to the middle men, then to the railroads, next to the manufacturer and lastly to the eastern wholesale dealer—not one of whom adds a farthing to the wealth of the town where the land lies nor pays a cent in taxes towards the support of the State government or the schools for the education of his children. This city pays from thirty to forty thousand dollars annually for the article of paper while the evening sky is lurid from flames of burning straw that might be manufactured into this very material, and we need to drive the mills rolls greedily on, missing in ripping cadences of grand opportunities lost by slothful indifference.

LIEUTENANT GOVERNOR JACOBI, of Kentucky, a few days since, took ground in favor of the ratification of the constitutional amendment by that state. He said "Kentucky is bound to become a free State through the choice of her own people, and delay in settling the question only complicate the process by which it will reach that destiny."

A SUPERIOR REMEDY.

We can confidently recommend to those suffering from a distressing cough, Dr. Strickland's Medicine, sold by all Druggists. It gives relief almost instantly, and is without any disagreeable to the taste. There is no doubt but the Medicine Cough Drops is one of the best preparations now in use, and is that the proprietor claims for it. We have tried it during the past week, and found relief from a most distressing cough. It is prepared by Dr. Strickland, 8 East Fourth Street, Cincinnati, O., and for sale by the druggists at 50 cents per bottle.

W. F. COLWELL, general agent for Wisconsin.
Solely for this territory.

CUTENARIA.

A SWEET, SAFE, and SURE CURE for the Itch—wale by Druggists and Dealers generally. CUTENARIA is a liquid preparation, holding in solution a large percentage of the Pure Sulphate of Calcium. It has been carefully tested by some of the most eminent and skillful members of the Medical Profession, who have examined our formula, and adopted it in their practice. It is free from the objections that attach to the ointments and other mercurial preparations, and is directly, and promptly, upon the cause of the disease. A single application, properly made, is sufficient to effect a complete cure. Full directions accompany each package. Prepared by

The New York Tribune says, "The reason Dr. Buck's Plantation Bitters are so universally used is such an immense sale, is the fact they are made up in the original standard, of highly invigorating material and of pure quality, although the price is so largely advanced." &c.

The Tribune just into the end on the head. Plantation Bitters are not only made of pure material but the people are told what it is. The bottles are marked under each bottle, and the Bitters are no longer sold in bulk. At least twenty millions and a half have sprung up. They impose upon the people and that's the fact of them.

The Plantation Bitters are now sold in all the prominent health resorts, and are recommended by the best physicians, and are warranted to produce an invigorating beneficial effect. Nucleus are stubborn things.

"I owe much to you, for I verily in the Plantation Bitters have saved my life."

REV. W. H. WAGGONER,
Amherst, New York.

"I have been used two bottles of the Plantation Bitters. My friend has been greatly benefited by their use. Thy friend,"

ASA CURRIEN,
Philadelphia.

"I have been a great sufferer from indigestion and abdominal prostration. The Plantation Bitters have cured me."

REV. J. S. CATHON,
Baltimore, Md.

"Send us twenty-four dozen more of Plantation Bitters. We have been greatly interested with the results of our friends."

BYRKS, CHADWICK & CO.,
Proprietors, 1711 Market, Washington, D. C.

"I have given the Plantation Bitters to hundreds of my disabled soldiers, and they are finding relief."

Sgt. Soladore Himes, Cincinnati.

"The Plantation Bitters have cured liver complaint, of which I was lately prostrated and had to abandon my business."

H. B. HINGSTLEY, Cleveland.

"The Plantation Bitters have cured the complaint of the kidneys and the urinary tract, and has dis-cured me for years. Treatise like this should be sent to every man who has been cured and cured herself, and both are in agony and well. The article is invaluable to medical men."

JUDITH RUSSELL.

If the ladies of America but knew what their own are actually relating to us, we could relieve one half of the weakness, prostration and despair experienced by their world women. James N. York, of 130 West 14th St., N. Y. City, "has cured children, the first two are weak and puny, but having been unable to nurse or to pump, but who has nursed and cured them for the next two years and has a third now eighteen months old who has nursed and cured herself, and both are in agony and well. The article is invaluable to medical men."

Such evidence might be continued for a volume. The best evidence is to try them. They speak themselves. Prolapse of secondary habits—trouble, weakness, nervous, palpitation of the heart, loss of appetite, distress after eating, torpid liver, constipation, diarrhoea, &c., will find speedy relief through Bitters.

They are now sold by all respectable dealers and by the following places. Be sure each bottle has private United States Stamp over the top, none other. We do not sell it in any other way.

JANUARY CIRCULAR FOR 1865.

GREAT SALE OF

DRY GOODS

Ready-Made Clothing, Ladies' Furs,
Ladies' Cloaks and Shawls,
Boots & Shoes, Carpets,
Oil Cloths, &c.

\$50,000 Worth of Goods

To be Run off Before the 30th of
February.

We have purchased since the 15th day of November
\$75,000 worth of the above named goods. A great por-
tion of which has been the cargo of a blockade runner.
The balance purchased at the great clearing out impor-
ters' sale at Auction, and hence by us at a reduction
from 25 to 50 per cent. less than the old prices. We have also

50 Bales Domestic Goods
all grades, at an equal reduction.

It is vital with us since our commencement to be
able to close out goods in their own season and to
carry stock from one season to another as it does
not carry merchants, and therefore we determined the
entire amount of goods must be sold within a
stated time.

Among our late purchases are the following:

300 SETS LADIES' FURS

Consisting of Mink, Mountain
Stone Martin, Siberian Squirrel
River Mink, Mink Rat,
and American Sable,
Which will be sold at the following prices:

Large Cape, Muff and Outfit, American Sable, at \$25,
sold until the 30th of February at \$7.
Mountain Martin, Cape and Muff at \$7. Septem-
ber price \$12.50.
200 sets Children's Furs, Cape and Muff, at \$4 per set
60 Mink Rat Mitts, sold at \$5; now to be closed out
at \$2.50.

300 LADIES CLOAKS

Which will be sold out at the following prices:

50 black cloth, Circular, September price \$10; will
be sold until the 30th of February at \$7.
Heavy Beaver Cloaks, September price \$15 to \$20;
to be sold at from \$12 to \$17.
100 pieces Ottomans, September price \$2.50;
\$1.62 1/2.
200 pieces Rep. Delaines, solid colors, 37 1/2 cents
yard less than common price.
10,000 yards best printed Delaine will now close out
at 40 cents per yard.
2,000 yards fancy Raincoat (in some cases enough
dress pattern), at 3 1/2 cents per yard.

PRINTS! PRINTS! PRINTS!

Ten Cases Madras Prints, fast colors, at 30 cents
per yard, sold last week at 25 cents. Fancy
Moulin, some as low as 25 cents per yard.

We have now on hand the largest stock of

CARPETS & OIL CLOTH

Ever held by us at any one time, which we guarantee
to sell from one to two shillings per yard less
than elsewhere on Chicago's price.

Shoes! Shoes! Shoes!

500 pairs Ladies' Cloth Gaiters, wool lined, at \$1.50
pair.
5,000 pairs Misses' and Childrens' Boots and Shoes
at equally low prices.
Together with 1,000 other articles too numerous
to mention.

In conclusion we would say to the people of
and adjoining counties, that this is a rare opportunity
to purchase goods at prices far below that of New
York City of this season. We bought our entire stock at
auction, and from Importers and Manufacturers, at

10 TO 25 PER CENT. LESS

Than any goods sold by them this season—all at
cash, and will be sold without regard to price,
or to close out preparatory to the opening of
Spring Trade.

Dry Goods.

MC KEY & BRO.'S

JANUARY CIRCULAR FOR 1865.

GREAT SALE OF

DRY GOODS!

Ready-Made Clothing, Ladies' Furs,
Ladies' Cloaks and Shawls,
Hats & Shoes, Carpets,
Oil Cloths, &c.

\$50,000 Worth of Goods

To be sold off before the 30th of
February.

We have purchased since the 15th day of November
75,000 worth of the above named goods. A great por-
tion of which has been the cargo of a blockade runner.
The balance purchased at the great closing out Impos-
sible Sale at Auction, and bought by us at a reduction
of from 25 to 50 per cent. less than September's prices.
We have also

50 Bales Domestic Goods!

all grades, at an equal reduction.

It is usual with us since our commencement in busi-
ness to close out goods in their own season and not
carry stock from one season to another as is done by
most dry merchants, and therefore are determined that
the whole amount of goods must be sold within the
stated time.

Among our late purchases are the following.

300 SETS LADIES' FURS!

Consisting of Mink, Mountain and
Stone Martin, Siberian Sable,
Hiver Mink, Mink Kat,
and American Sable,

Which will be sold at the following prices:

Large Cape, Muff and Cuffs, American Sable, at \$40, sold
in September at \$15.
Mountain Mink, Cape and Muff at \$7. September
price \$12.50.
20 set Calf Minks, Furs, Cape and Muff, at \$4 per set.
50 Mink Rat Muffs, sold at \$5; now to be closed out at
\$2.50.

300 LADIES' CLOAKS!

Which will be sold out at the following prices:

50 black cloth Circulars, September price \$10; will be
sold until the 20th of February at \$7.
Heavy Beaver Cloaks, September price \$18 to \$20; will
be sold at from \$12 to \$15.
100 pieces Ottoman Cloths, September price \$3.25; now
\$1.25.
300 pieces Rep. Delaine, solid colors, 37½ cents per
yard less than common prices.
10,000 yards best printed Delaine we will now close out
at 40 cents per yard.
3,000 yards remounte, (in some cases enough for 2
dress pattern.) at 37½ cents per yard.

PRINTS! PRINTS! PRINTS!

Ten Cases Madder Prints, best colors, at 30 cts. per
yard, sold last week at 35 cts. 500 cases bleached
Muslin, some as low as 25 cts. per yard.

We have now on hand the largest stock of

CARPETS & OIL CLOTHS

Ever held by us at any one time, which we guarantee
to sell from one to two shillings per yard less than
Milwaukee or Chicago prices.

Shoes! Shoes! Shoes!

200 pairs Ladies' Cloth Gaiters, wood lined, at \$1.25 per
pair.
5,000 pairs Misses' and Childrens' Boots and Shoes, at
equally low prices.
Together with 11,000 other articles too numerous to
mention.

In conclusion we would say to the people of Rock
and adjoining Counties, that this is a rare opportunity
to purchase goods at prices far below that of New York
City of this date. We bought our entire stock at Auction
and from Importers and Manufacturers, at from

10 TO 25 PER CENT. LESS

Than any goods sold by them this season—all for net
cash, and will be sold without regard to price, in or-
der to close out preparatory to the opening of the
Spring Trade.
